

The Crows' Courier

ISSUE NO. 10 | MAY 2022

The mission of Crows' Feat Farm is to build community through a collaborative commitment to regenerative farming

OUR PURPOSE

WHAT'S GROWING ON

The Farm Stand is Open for the Season

Our mobile farm stand is now open on Saturdays from 10am-3pm at 180 Drinkwater Rd in Kensington. We have all kinds of vegetable, herb & flower seedlings, as well as flowers, salad greens, eggs, freshly-made chèvre and other goodies. We'll have longer hours and more produce as the summer gets going, so please stop by and check us out! You can also view our offerings at our [online farm store](#) – these items are all available for pick-up at the farm.

Dine Under the Stars this Summer!

We'll be resuming our popular farm dinner series this summer, beginning on June 25th. Enjoy the freshest seasonal produce, expertly prepared, as you dine amid the extraordinary beauty of this farm. For more information and tickets, please visit the [Community Dinner page](#) on our website. Have some fun with friends by helping serve and clean up – and get a free dinner ticket!

And don't forget our upcoming [concert series](#), which launches with the Crab Shack Band on June 12th. Get your tickets now!

Community Gardeners Gather!

Crows' Feat has been incredibly blessed by the outpouring of support from this community! In addition to our enterprise farmers and working party participants, a group of Kensington community gardeners are helping us expand the productive potential of this land. With expert advice from Master Gardeners Wendy Osgood and Sydnee Goddard, they've prepared garden beds on the terraces facing Drinkwater Rd to the west, and have begun planting their seeds. Much of the food we grow here is donated to those in need. On any given weekend you're liable to find 15-20 souls in cheerful camaraderie as we work the soil and maximize its bounty. If you're interested in participating in our community gardening program, please write to info@crowsfeatfarm.org!

COME GROW WITH US!

First Saturday Work Parties

June 4th

July 2nd

August 6th

From 9 am - noon, followed
by a farm lunch!

On the first Saturday of every month, we gather as a community to perform the work of this farm that none of us can do alone. In early May we transplanted hundreds of seedlings into our hoop house, thanks to the hard work of the Reardon boys, among many others. Thank you, dear friends!
